

## CLINICAL EXPERIENCE TRAINING

**Dr. Alberto Salgado**  
Speaker

**11-13 September**  
ALICANTE, SPAIN | 2024

# Implants in the aesthetic area & bone augmentation procedures

 LIVE SURGERY ON PATIENT

## CLINICAL EXPERIENCE TRAINING | OVERVIEW

During this course you will explore the latest advancements in implant dentistry, with emphasis in bone augmentation procedures and aesthetic zone implants. Learning topics include bone and soft tissue regeneration, immediate implantation and loading. Participants will attend live surgeries, gaining practical insights on various surgical techniques, while reviewing tips and tricks.

- TOPICS**
- Exploration of cutting-edge advancements in implant dentistry and full-arch procedures
  - Implants in the aesthetic area and how to excel this procedure
  - Bone and soft tissue regeneration, immediate implant placement, and immediate loading

## THE SPEAKER

Dr. Alberto Salgado owns an Extraordinary Degree of Dentistry from the Complutense University of Madrid, a Master of Surgery, and a Master of Implants from the same institution. Chairman of Advanced Surgery Master, University La Salle Madrid and a Guest Professor in over 10 International Universities worldwide. Dr. Salgado is author and co-author of several scientific articles in international journals, and a global speaker in the field of Implantology and Regeneration. He is a Member of MSR, the European Association for Osseointegration and Member of the Communication Committee of the same international association. He is the Head of Surgery and Implants Department at his private clinic, the Clinica Salgado in Alicante (Spain), and leads the Surgical Training Department at 2A Training Center.

 Arrival: 11 September | Departure: 13 September

## 12 SEPTEMBER 2024 | THURSDAY
